

## Quality and Environmental Policy

**ReadLab P.C.** has developed and implemented an **Integrated Management System** under the requirements of **ISO9001:2015** and **ISO 14001:2015** standards with the scope of: "**Provision of consulting, technical services, and expertise to public and private sector entities. Design and implementation of education, training, culture, youth, and sports projects. Design and implementation of research, technological development, and technical assistance projects. Design and implementation of innovation projects through funding/financial programmes. Technical assistance in European Territorial Cooperation programmes (Crossborder, Transnational and Interregional). Technical support for programmes/projects of public and private bodies. Development of design models and transfer of know-how for the design and operation of incubators, technology parks and other technology & innovation projects. Provision of consulting services and support to public and private sector entities for funded and investment projects. Provision of private education and vocational training services. Design and development of software and ICT.**"

The company's Administration is committed to adhering to the Integrated Management System with consistency and focuses on the provision of products and services of consistent and known quality and the coverage of environmental impacts.

This company Policy statement constitutes a commitment to comply with national laws, EU and regulatory directives, the requirements of the standards and the continuous improvement of the effectiveness of the Integrated Management System. The company is committed to complying with and fully implementing environmental and applicable legislation governing its operations and environmental management.

For the effective implementation of the above, **ReadLab P.C.** establishes objective goals for quality and environmental objectives at all levels of its operation, the achievement of which is examined and evaluated by the Administration, in the context of the scheduled reviews of the Management System (MS), with the ultimate goal of continuous improvement.

The Administration is committed to its staff's continuous training and improvement of the Integrated Management System. The above policy applies to all of our company's activities, is communicated and made available both within the company and to stakeholders as appropriate and is ensured that it is applied at all levels, with the primary purpose of creating awareness of the Principles and Philosophy of the System.

The company, through the unwavering commitment of the Administration to the observance of the principles set out in this policy and generally, throughout the company's Management System (MS), looks forward to the continuous and steady growth of its business activity as a by-product of the satisfaction of its customers' requirements and the constant increase in the quality of the services provided by the company.

**The Administration:**
