

“Pilot study of the SELFIEforTEACHERS version for Early Childhood Education and Care (ECEC)” is a study that aims to pilot the adapted SELFIEforTEACHERS tool for ECEC and confirm its validity in different educational and geographical contexts. A mixed method research design will be followed.

The specific objectives of the study are:

- To translate and adapt the SELFIEforTEACHERS version for ECEC into selected countries languages.
- To pilot the adapted tool and receive minimum 1000 responses (self-reflections).
- To organise focus group discussions and interviews to receive additional qualitative feedback.
- To conduct quantitative and qualitative analysis of data in order to validate the ECEC version.
- To provide research findings on the validity of the ECEC version and present them to EC’s working group.
- To present recommendations on any potential changes and revise the SELFIEforTEACHERS version for ECEC.

Target group:

- Professionals in Early Childhood Education and Care

Geographic scope of the study:

- Cyprus, Finland, Greece, Ireland, Italy, Norway

For more information, you can contact the Project Manager and Scientific Coordinator of the study, Tharrenos Bratitsis, at S4T_pilot@uowm.gr.

Contractor of the study: ReadLab
